

STUDY IN IRELAND

WARMEST WELCOME

“

Ireland offers the warmest welcome to students from all over the world. Over 5,000 internationally recognised and quality assured programmes are available to everyone.

The only English-Speaking country in the E.U., Ireland is globally connected and home to many of the world's top companies. With generous funding from the Irish government and Irish universities being the top 1% of research institutions worldwide, Ireland has achieved a steady growth of talented international students from across the globe who are taking advantage of the higher education standard.

Ireland produces unique, creative and innovative graduates ready for the world of tomorrow. Being educated in a friendly and welcoming environment is a life changing experience... It is an investment with a lifetime return of knowledge and wisdom.

”

Message from Her Excellency Orla Tunney, Ambassador of Ireland to Malaysia

Dear prospective students and parents,

I am happy to introduce this booklet by our friends in Mystudy. They are part of a long and successful relationship between Ireland and Malaysia in the education sector, and are experienced in offering sound advice to students considering Ireland for the next step in their education and career development.

This publication brings together in one convenient package many of important facts to consider, including the world-class educational offering available in Ireland and the advantages in terms of daily living and access to employment.

For peace of mind it is worth remembering that Ireland is placed 3rd in the Global Peace Index 2023 and eighth in the United Nation's 2022 Human Development Index. Ireland is a committed member of the European Union and has attracted more than 1,400 leading multinational companies to establish their European Headquarters in our country.

If you see your future including working for one of these, you can benefit from the Irish government's Third Level Graduate scheme, which allows non-EU/EEA students who have graduated from an Irish higher education institution to remain in Ireland for up to 24 months to seek employment.

Ireland has something to offer to international students on both vocational and professionally- orientated programmes. I hope that you will choose Ireland for the next important step on your educational journey. You will be following in the footsteps of the thousands of Malaysians we have welcomed over the past seventy years, and you will be very welcome.

Orla Tunney

Ambassador of Ireland to Malaysia.

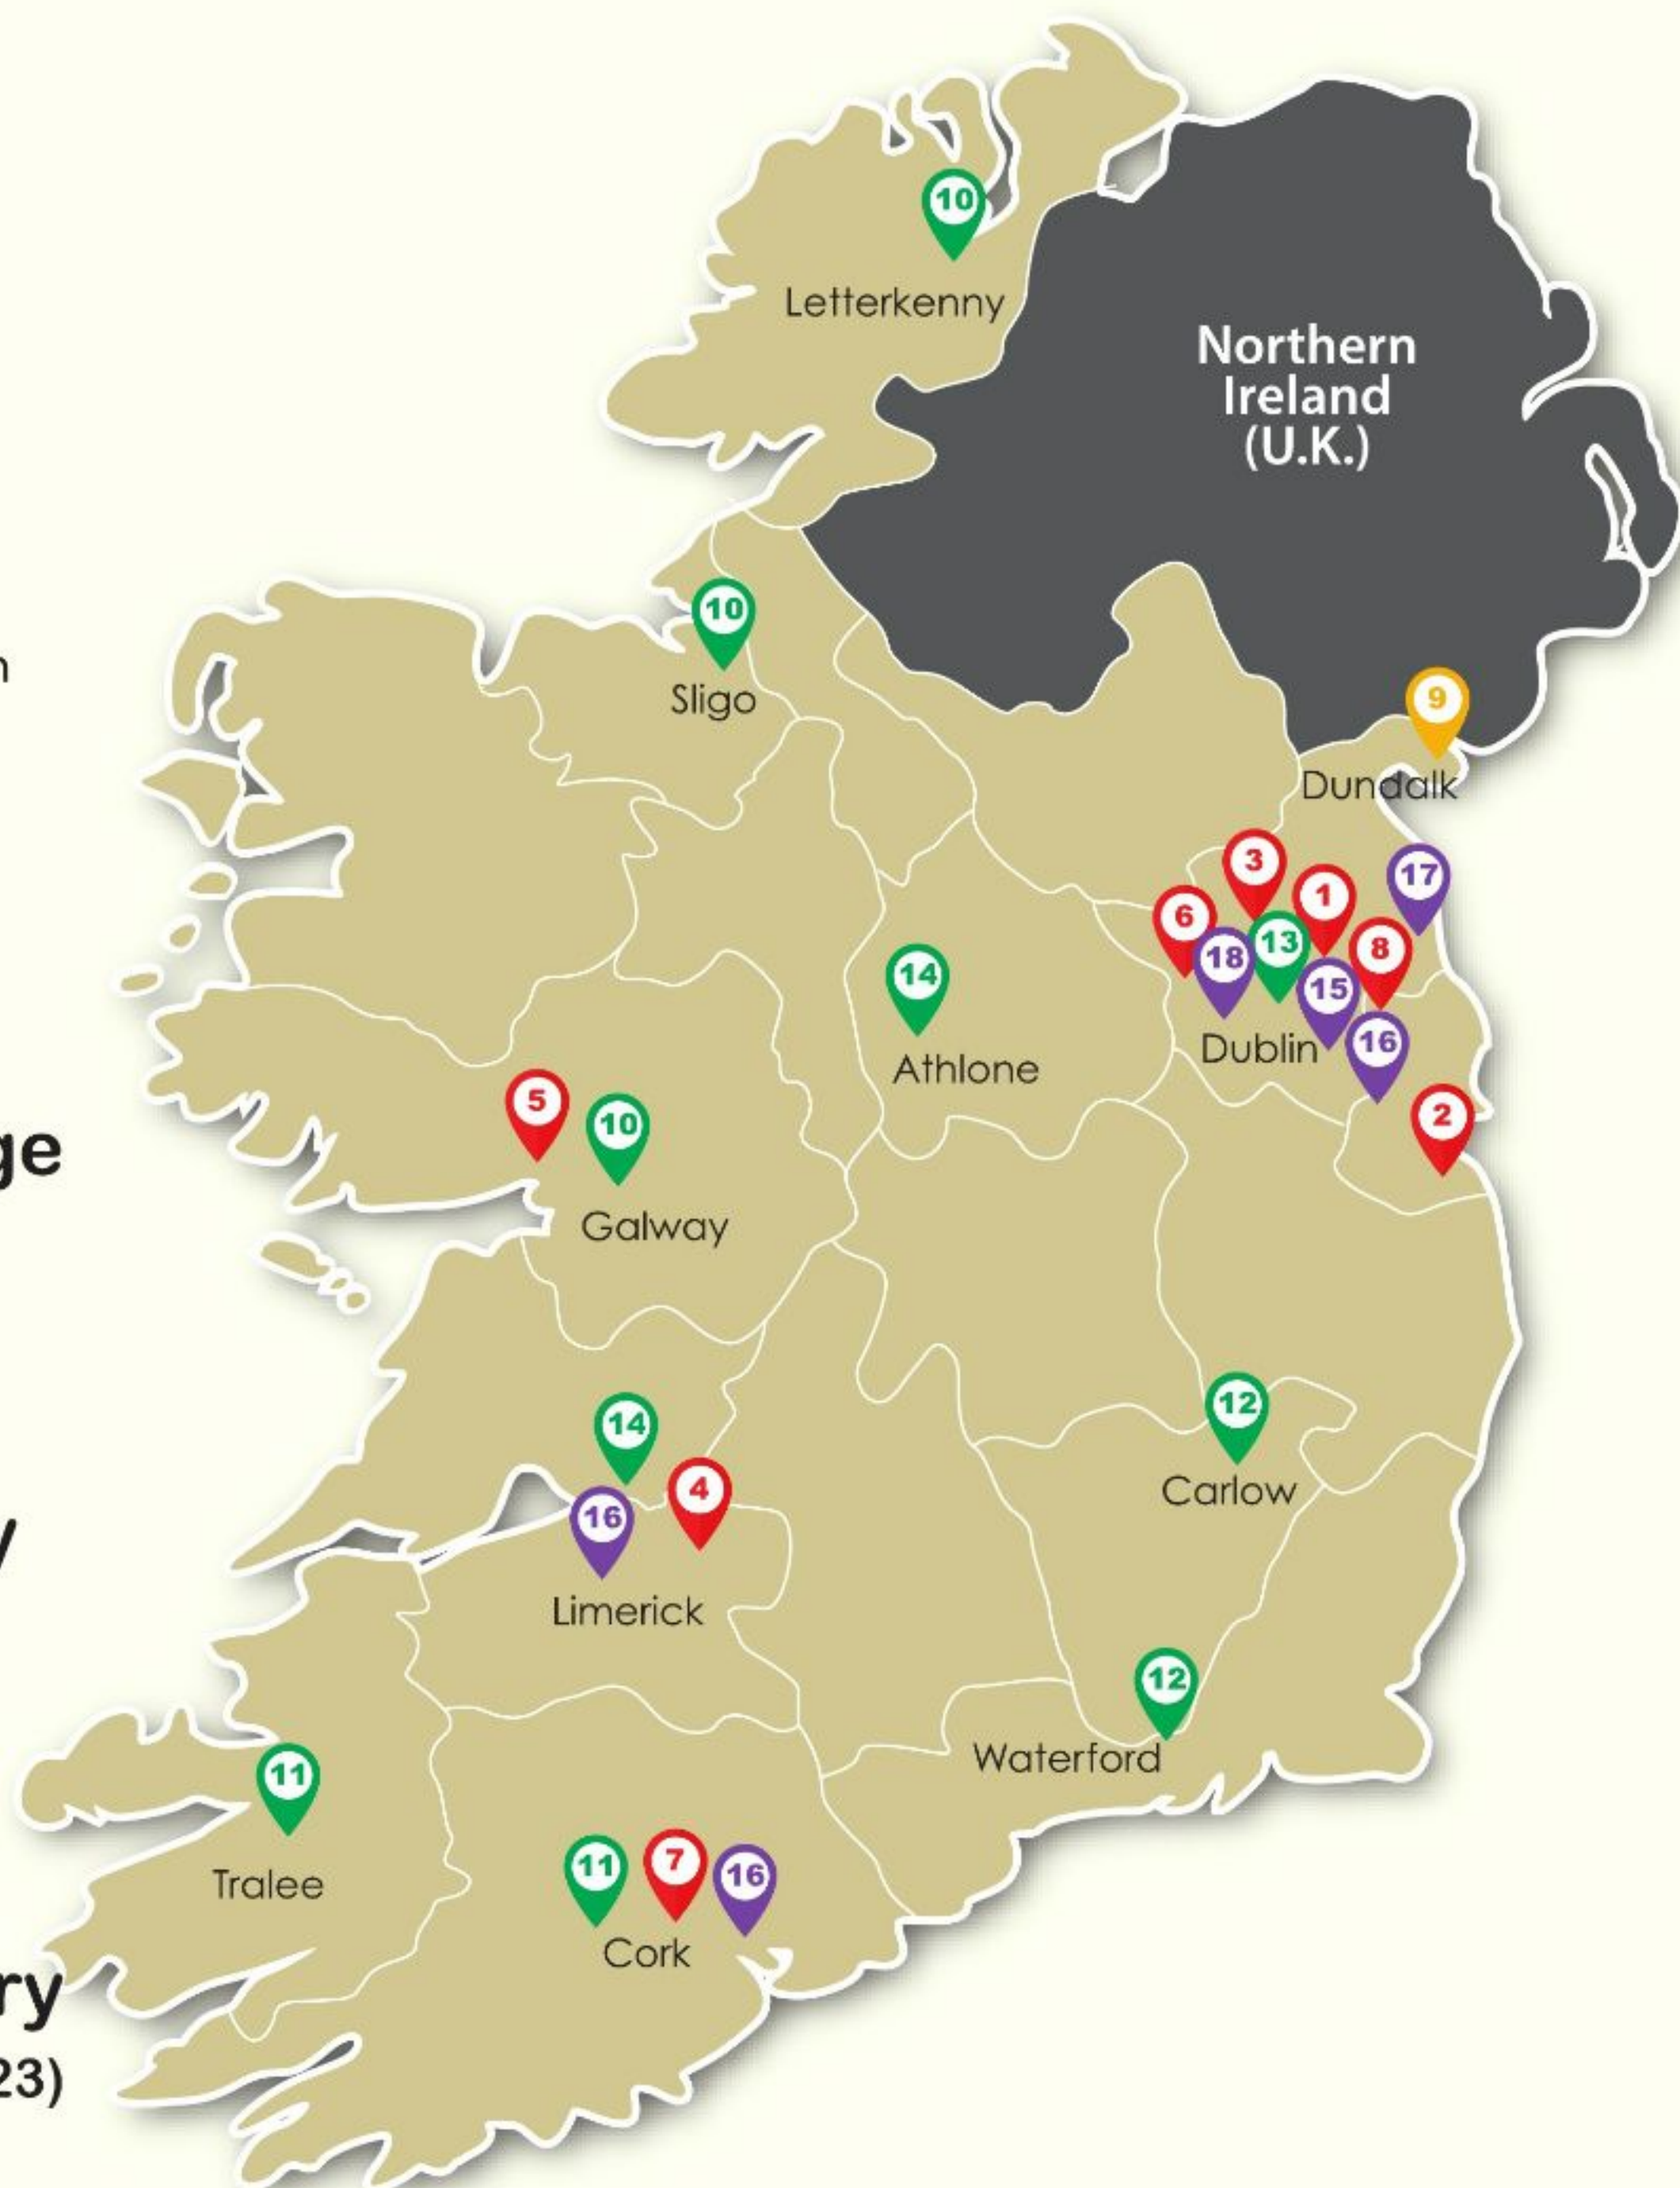

Higher Education In Ireland

offers over 5,000+ remarkable programmes. Covering a huge and diverse range, all of the courses lead to internationally recognised, quality assured qualifications. So whether you want a strong, focused business school, a centre of scientific and technological excellence, or a world-renowned English language, humanities and arts faculty... you'll find them all in Ireland.

EDUCATION

The Irish Government have placed a particular emphasis on improving the quality of education in Science, Technology, Engineering and Mathematics (STEM) over the past decades. The vision is to provide students with a STEM education experience with international quality that ensures high levels of student engagement, enjoyment, and excellent performance across STEM disciplines.

Effective STEM education helps the learner to develop disciplinary knowledge (e.g. Biology, Physics, Chemistry, Mathematics, Engineering, Technology), skills (e.g. problem-solving, modelling, design, IT skills), and habits of mind (e.g. inquiry, evidence-based reasoning, logical thinking) for collaborative innovation.

Ireland has a highly educated population that supports employment in a knowledge-based economy that attracts Foreign Direct Investment (FDI) with an active ecosystem for the educators to collaborate with industry.

Ireland ranks 12th in the Global Scientific Index.

2023 Global Innovation Index, - Ireland is ranked in the following specific fields:

SFI ranking statistics are gathered via Incites by Clarivate Analytics (updated 2023)

Ireland has the highest level of STEM graduate per capita in EU with:

1st in the world for Knowledge Diffusion

2nd most competitive economy in the EU

3rd for knowledge impact

5th for knowledge absorption

STUDY PATHWAY

English Language Requirement

- **IELTS** - minimum score of 6.0
- **TOEFL** - minimum score of 580 (Paper-based test)
- **IGCSE O-Level** (English as First Language) - minimum Credit
- **Duolingo** - minimum score of 115
- **PTE Academic** – minimum score of 61
- **CEFR** - minimum of B2 level

*All of the higher education institutions and courses have their own specific English language entry requirements.

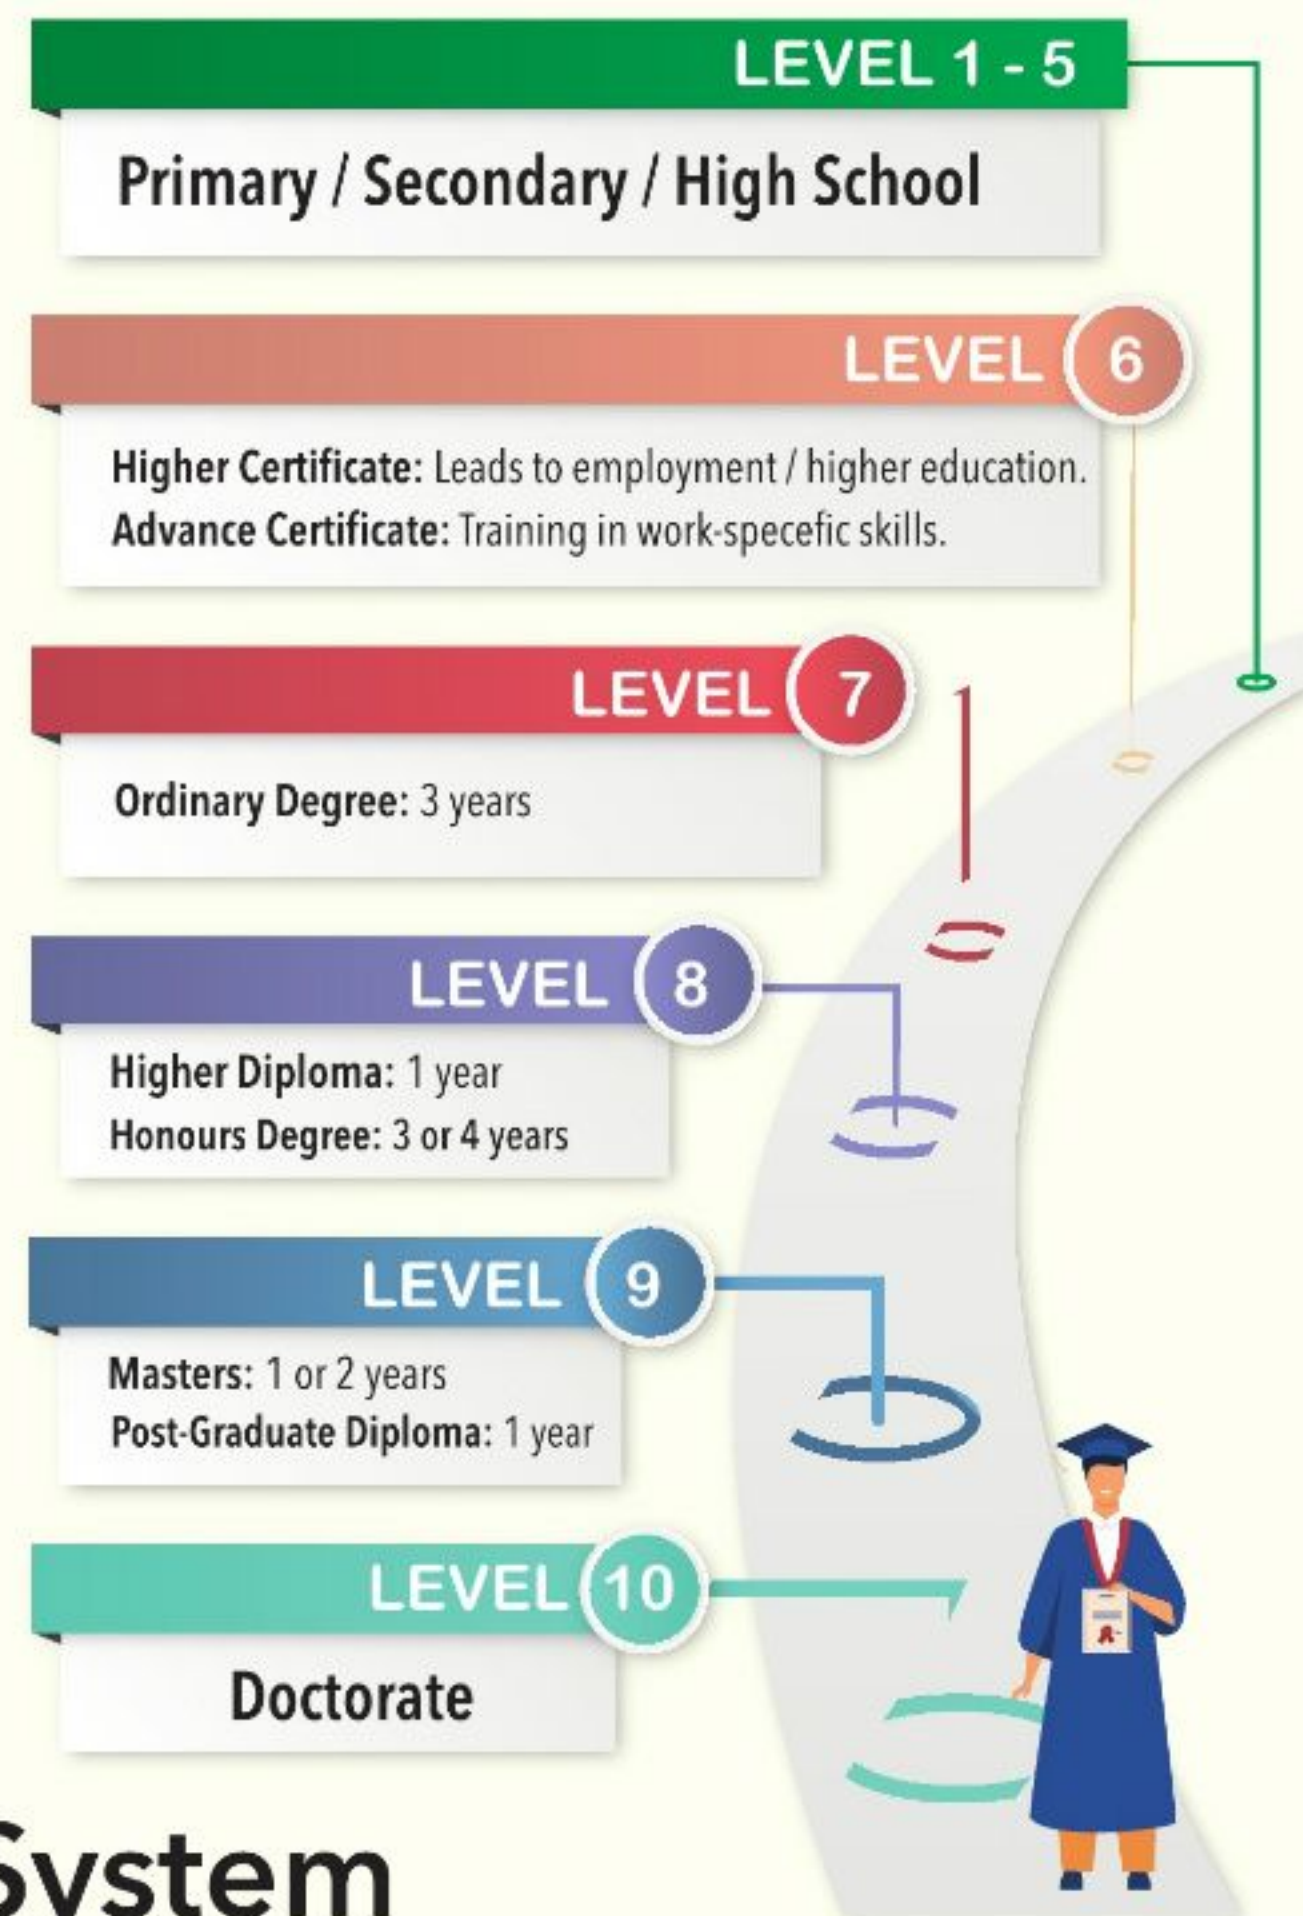

*Intensive English Summer Programme is available for students, who do not meet the English Requirements, to improve their level of English proficiency for academic studies.

Ireland Education System

In Ireland, the qualifications recognise the knowledge and skills that have been achieved and can be practised by a learner. The worldwide reputation of Ireland's high quality education is built on the practical foundation of commitment towards excellence. It is crucial to ensure the teaching methods are up-to-date and learners are inspired by the spirit of curiosity and discovery.

Beyond a reputation for academic quality and choice, international students are drawn to Ireland for its deep cultural traditions, diverse outdoor activities and a vibrant young population with unique student life.

This 10-Level National Framework of Qualifications (NFQ) gives learners, education providers and employers an easy understanding of Irish system. The NFQ also help to compare a foreign qualification with its Irish equivalent for International recognition. It is also aligned with the EU's Bologna process and European Higher Education Area (EHEA).

European Union Education System

The EU is the world's most open market, where people are free to live, work and study wherever they wish. However, the various European education system are diverse and reflect national traditions. European Qualifications Framework (EQF) is established to support the cross-border mobility within EU by allowing qualifications gain in any European country to be classified and organised into a simple 8-Level system.

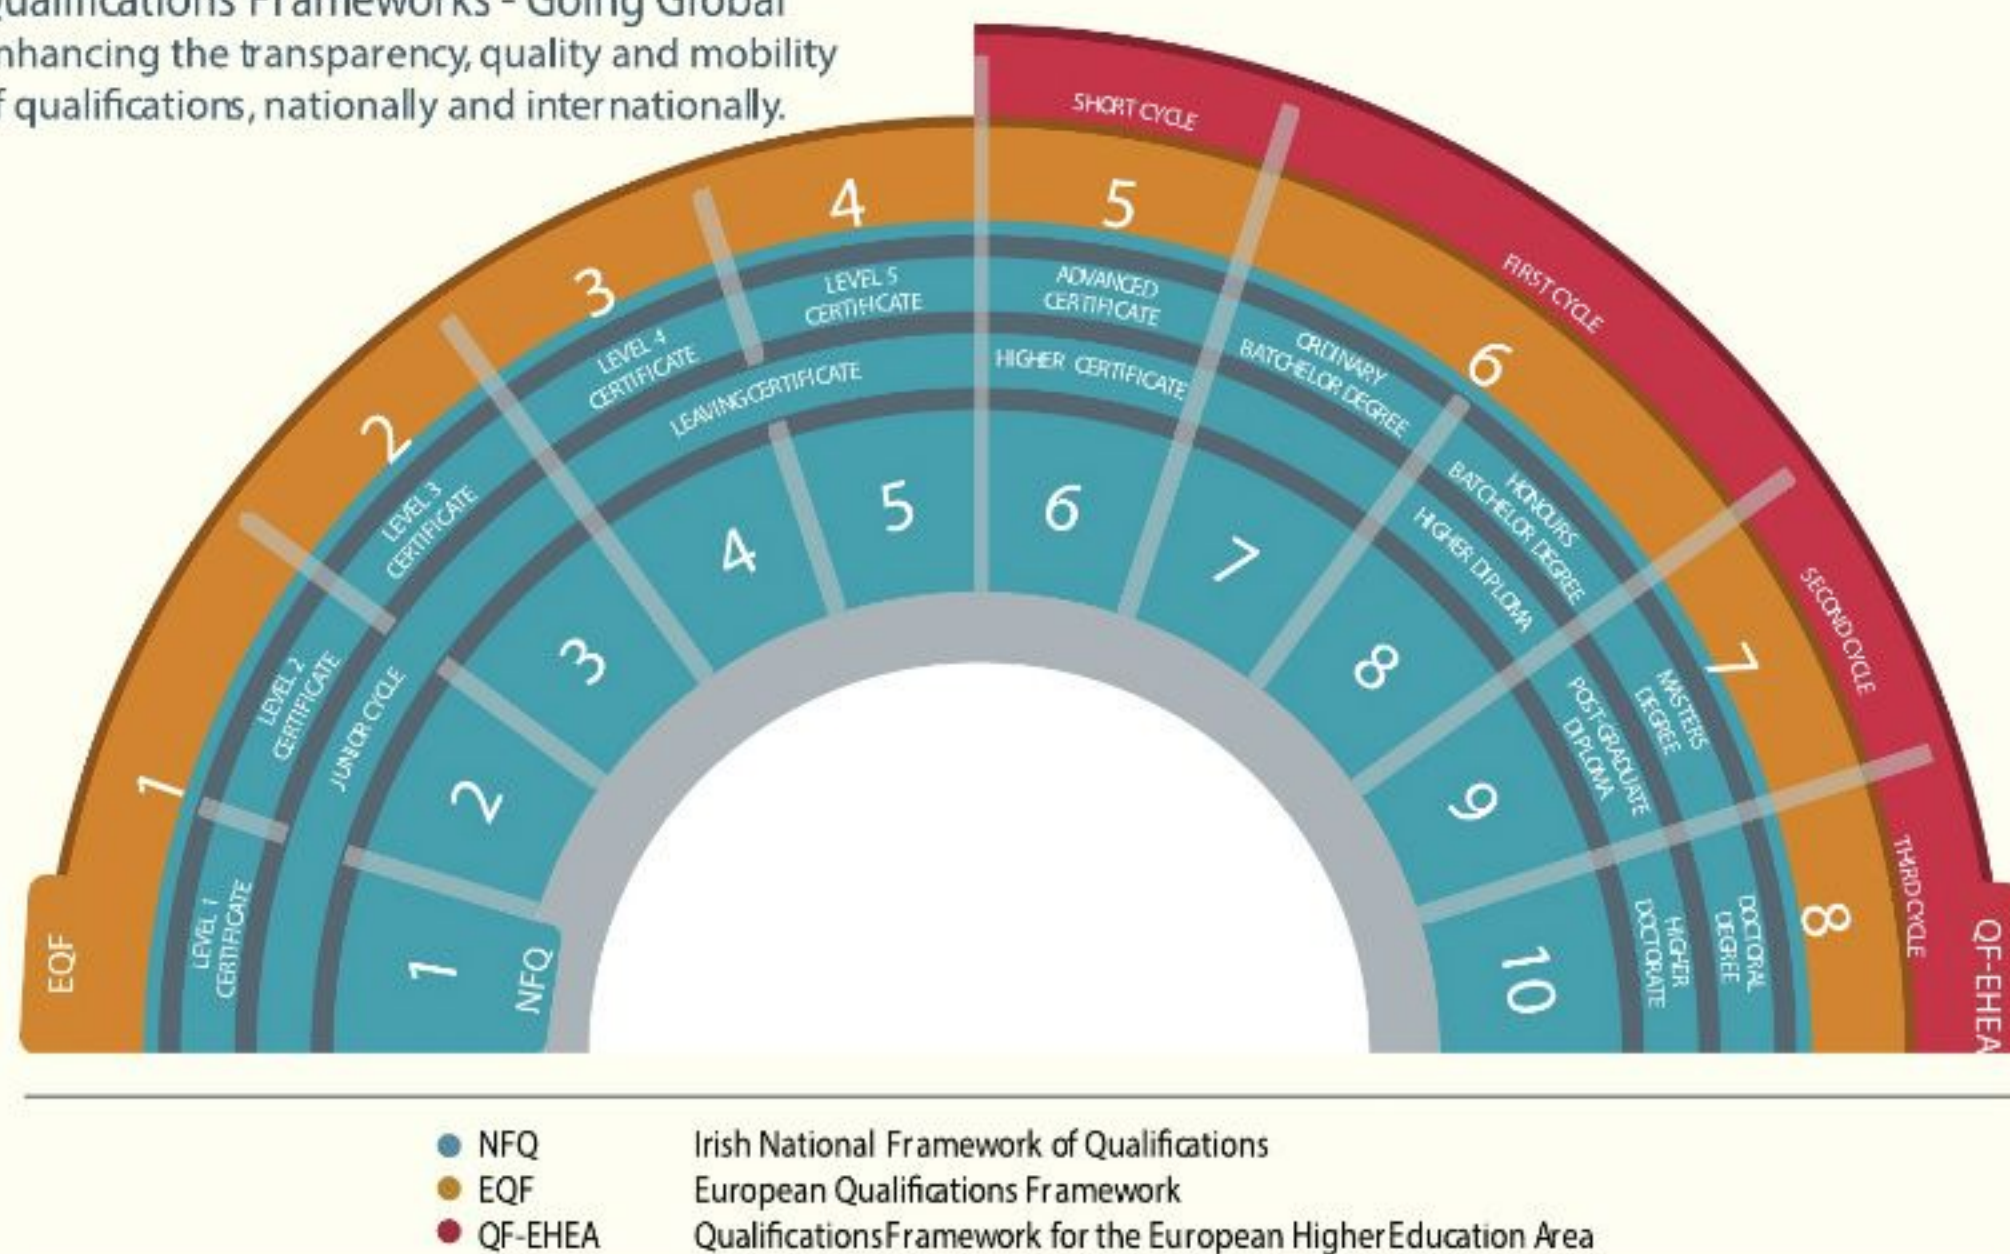

Courses undertaken in Ireland are recognised within the student's final degree award under the European Credit Transfer System (ECTS).

Ireland is the 1st Country in Europe to establish a clear and transparent relationship between the 10-Level NFQ and the 8-Level EQF!

Erasmus Program ("EuRopean Community Action Scheme for the Mobility of University Students") is the EU's Lifelong Learning Program that encouraged students to participate in a semester or year long exchange or / and internship in other European countries to broaden both their studies and cultural experiences.

No tuition fees is required to destination institution and each student will received a grant for cost of living abroad.

Qualifications Frameworks - Going Global
Enhancing the transparency, quality and mobility
of qualifications, nationally and internationally.

NATIONALITIES

TUS is home to students and partnerships from more than 100 countries

The cultural and diverse atmosphere on campus in TUS has added an enriching layer to my overall university experience. TUS embraces a global perspective, bringing together students from various backgrounds, fostering an environment where diverse ideas and perspectives are not only welcomed but celebrated.

Moreover, the inclusive culture at TUS promotes a sense of belonging and unity. Faculty and students alike are encouraged to share their unique experiences, creating a supportive community that values individual contributions. This inclusive environment has made my journey at TUS not just an educational pursuit but a holistic and fulfilling experience that goes beyond the boundaries of the classroom. Although life here is simple, the simplicity adds to the charm, making it not only an intellectually stimulating journey but also an immensely enjoyable one.

QUICK FACTS

Ireland ranks as the Richest Country in 2023!

Ireland, with 5 million people, is the richest country in the world in 2023. Ireland's fortunes were transformed two decades ago when global giants like Apple, Google, Microsoft, Meta, Amazon, PayPal and eBay invested in the country due to its pro-business policies. Since then, more world leading companies established and expanded their operations in Ireland to benefit from its corporate tax rate of 12.5%, which is among the most competitive in the industrialized world. These multinational corporations contributed more than 55% of Ireland's value added that boosted its employment rates and resulted in its per capita GDP growth exponentially.

INTERNATIONAL STUDENT TUITION FEES

	Yearly Tuition Fees
Medicine & related	€45,000 - €60,000
Engineering	€10,500 - €28,000
Science & Technology	€10,500 - €28,000
Arts & Humanities	€10,500 - €24,000
Business	€10,500 - €22,000

LIVING COST IN IRELAND

- Estimation of living cost in the range of €8,500 - €15,000 per annum
(as a decent student expenses)
- The cost of living varies by the location of the university.
(eg. higher rental in the capital city, Dublin)

	TCD	UCD	UCC	DCU	UL	MU	UG	TU Dublin	DkIT	ATU - GALWAY	ATU - LETTERKENNY	ATU - SLIGO	MTU - CORK	MTU - TRALEE	SETU - CARLOW	SETU - WATERFORD	TUS - MIDLANDS	TUS - MIDWEST	GC	NCI	DBS
Health & Applied Science Degree																					
Accuracy Checking for Pharmacy Professionals																					
Actuarial Mathematics																					
Actuarial and Financial Mathematics																					
Animal and Crop Production																					
Agricultural Mechanics																					
Agriculture																					
Agriculture (Sustainable Agriculture/Agri-Food Production)																					
Agriculture & Environmental Science																					
Agriculture Science																					
Agriculture Science and Sustainability																					
Analytical Chemistry (Environmental, Forensic and Pharmaceutical)																					
Analytical Chemistry with Quality Assurance																					
Analytical and Pharmaceutical Chemistry																					
Analytical Science																					
Animal Science																					
Applied Biology																					
Applied Biology and Biopharmaceutical Science																					
Applied Biosciences																					
Applied Chemistry																					
Applied Freshwater and Marine Biology																					
Applied Physics																					
Applied Physics and Instrumentation																					
Astrophysics																					
Athletic Performance																					
Athletic and Rehabilitation Therapy & Training																					
Biochemistry /& Molecular Biology (Medicine)																					
Biological Sciences																					
Biological and Biomedical Sciences																					
Biological, Biomedical and Biomolecular Sciences																					
Biological and Chemical Sciences																					
Biological, Earth and Environmental Sciences																					
Biological & Geographical Sciences																					
Biomedical Science																					
Biomedical and Molecular Diagnostics																					
Biomolecular Science																					
Biopharmaceutical Science																					
Bioprocessing																					
Biosciences / Biology																					
Biosciences with Biopharmaceuticals																					
Biotechnology																					
Biotechnology and Bioanalysis																					
Biotechnology with Biopharmaceutical Science																					
Bioveterinary Science																					
Botany																					
Chemical & Pharmaceutical Science																					
Chemical Instrumentation & Analysis																					
Chemical Sciences																					
Chemical Sciences with Medicinal Chemistry																					
Chemistry																					
Chemistry (includes Medicinal/Sustainable/Biophysical)																					
Chemistry with Artificial Intelligence																					
Chemistry with Molecular Modelling																					
Clinical Measurement / Pharmacy Practice																					
Clinical Measurement Physiology																					
Crop Science																					
Dairy Business																					
Dentistry / Dental Science																					
Dentistry (Graduate Entry)																					
Dental Hygiene																					
Dental Nursing																					
Dental: Orthodontic Therapy																					
Dental Technology																					
DNA and Forensic Analysis																					
Drug & Medicinal Product Analysis																					
Earth Sciences																					

Undergraduate Degree

Health & Applied Science Degree																					
Earth and Environmental Sciences	●	●																			
Earth and Ocean Sciences							●														
Environmental Health / Safety							●	●													
Environmental Management																					
Environmental Science	●				●		●														
Environmental Science and Climate																		●			
Environmental Science and Engineering	●																				
Environmental Science and Technology				●									●								
Environmental Science with Ecology												●									
Equine Science					●																
Exercise & Health Science												●		●		●	●				
Exercise & Health Science with Massage Therapy													●	●							
Food & Agribusiness Management		●																			
Food Business with Chinese		●																			
Food Business Innovation													●	●							
Food Science		●	●					●													
Food Science & Health / Nutrition		●			●						●										
Food Science with Business																●					
Food Science with Innovation																					
Forensic and Pharmaceutical Science																		●			
Forensic Investigation & Analysis												●									
Forensic Science										●											
Forestry		●								●						●					
Genetics / & Cell Biology	●		●	●																	
Genetics and Genomics							●														
Health & Society / Leisure				●																	
Health and Leisure in Athletic Performance														●							
Health and Leisure with Health and Wellbeing														●							
Health Science & Physical Activity									●			●					●				
Health and Performance Science		●																			
Horticulture		●														●					
Horticulture, Landscape and Sportsturf Management		●																			
Human Genetics	●																				
Human Health & Disease	●																				
Immunology	●																				
Industrial Physics			●																		
Inclusive Sport and Physical Activity													●	●							
Nutraceuticals in Health and Nutrition								●													
Pharmaceutical and Biomedical Chemistry						●															
Pharmaceuticals and Drug Formulation												●			●						
Rural Enterprise and Agri-business										●											
Sustainable Farm Management and Agribusiness															●						
Acute Medicine Nursing														●							
Adapted Physical Activity														●							
Advanced Therapeutic Technologies																			●		
Applied Health Care																●					
Applied Science																	●				
Applied Sport with Business												●									
Applied Sport Science with Performance Technology																		●			
Applied Sport Science with Sport and Exercise Nutrition																		●			
Brewing and Distilling															●						
Climate and Environmental Sustainability				●																	
Climate Physics							●														
Coaching Science and Sports Pedagogy													●								
Emergency Medicine Nursing																		●			
General Nursing	●	●	●				●		●	●	●		●	●		●	●				
Healthcare Support Practice																					
Health Sciences		●														●					
Health Science with Occupational Therapy Studies											●										
Health Science with Physiotherapy Studies											●										
Health and Medical Information Science												●									
Human Nutrition		●										●									
Inclusive practice for Special Needs Assistance											●										
Integrated Children's and General Nursing	●	●	●																		
Intellectual Disability Nursing	●		●						●		●					●
